Course Outline

This package includes these courses
- Digital Photography Certificate (60 Hours)
- Adobe Photoshop Bootcamp (18 Hours)
- Adobe Lightroom Classic (12 Hours)

Digital Photography Certificate

Master studio photography in this immersive course. Learn camera settings, studio lighting, retouching, and more. Gain essential skills in digital photography and Adobe software.

- Learn how to use the manual mode of a digital camera to take studio-quality portraits
- Develop skills used by professional photographers by maximizing workflows and mastering equipment set-up
- Gain hands-on experience setting up your studio space and snapping creative photos in a variety of real-world scenarios
- Learn to organize, edit, and share your digital photos with Adobe Lightroom
- Learn professional retouching techniques with Adobe Photoshop

Adobe Photoshop Bootcamp

Learn how to retouch and enhance photos, create graphics, and work with layers, masks, and filters in Adobe Photoshop. This course covers essential tools and techniques for color correction, image compositing, and preparing files for web, video, and print.

- Adjust color, brightness, and contrast to enhance photos with professional-quality edits.
- Use layers, masks, and blend modes to create seamless image composites.
- Retouch photos by removing unwanted elements and correcting imperfections.
- Master selections, cropping, and background removal for precise image editing.
- Prepare files for various formats, including web, video, and print production.
- Utilize smart filters, adjustment layers, and Camera Raw for non-destructive editing.

Adobe Lightroom Classic

Learn to manage, edit, and share photos using Adobe Lightroom. This course covers everything from importing and organizing your photo library to developing images for print, web, and social media.

- Import photos directly from your camera and organize your library with folders, collections, and metadata
- Edit and develop photos using Lightroom's full range of color, tone, and adjustment tools
- Optimize images for different outputs including print, web, and social media
- Create slideshows, webpages, and books directly within Lightroom
- Publish and share your work to social media platforms from within the app
- Implement backup strategies to keep your photo library safe and recoverable
