Excel Level I: Fundamentals

In this beginner Excel course, you will learn the essentials of Microsoft Excel, including calculations, basic functions, graphs, formatting, and printing. This comprehensive course is perfect for those with limited experience looking to expand their proficiency.

- Become familiar with the interface and data entry
- Learn essential formulas and functions
- Format and print your work
- Create charts, including line, column, and pie charts
- Learn tips and tricks for easy workbook management
- Review key concepts in a final project

PowerPoint Level I

This beginner-friendly PowerPoint course covers the core skills needed to create engaging and professional presentations.

From building slides to working with images, charts, and transitions, you'll learn how to design visually compelling presentations and deliver them with confidence.

- Build new presentations from templates and customize layouts, themes, and content structure
- Add and edit text, bullets, and numbered lists using Outline View and other formatting tools

- Insert and enhance photos, SmartArt, and shapes with effects, cropping, and alignment tools
- Create and format tables, add connector lines, and import charts from Excel to display data
- Apply transitions, manage presenter notes, and use presentation tools for live or virtual delivery
- Save, print, and export presentations to PDF, with options tailored for professional use

Microsoft Word Level I

Learn essential Microsoft Word skills to work faster and more efficiently, with no prior experience required. This hands-on class covers everything from basic formatting to advanced features like mass emails, citations, and time-saving shortcuts.

- Navigate documents efficiently and format text, paragraphs, and page layouts with confidence
- Work with tables and lists to organize and present information clearly
- Add and manage images within Word documents
- Insert endnotes, footnotes, and citations for professional and academic writing
- Save time with productivity shortcuts and formatting fixes for cleaner, more polished documents

Microsoft Outlook Level I

This one-day class concentrates on how to use Outlook quickly and effectively for daily work tasks or to become an Official Microsoft Certified Outlook Specialist. By the end of this class, you will be able to reduce hours of repetitive work by setting up rules and search folders to automate email, manage your calendar and to-do lists, manage huge amounts of email with ease, manage complex scheduling, organize all your contacts and track your correspondence.

- Outlook settings
- Working with messages
- Calendar management
- Notes, tasks, and journals
- Contacts and groups
