- Record macros and relative reference macros for ad hoc reporting
- Create a project that applies key concepts from the class

Microsoft Word Level II

Take your Microsoft Word skills to the next level with this advanced training course. You'll learn to automate tasks, create custom styles and templates, and work efficiently with long and complex documents.

- Manage multiple documents and collaborate with others using track changes, comments, and revision tools
- Apply advanced formatting techniques and build custom style sets and templates for consistent, professional documents
- Create and manage reference tables including tables of contents and indexes
- Design forms and use mail merge to automate personalized communications at scale
- Work efficiently with long documents using tools and techniques that streamline your workflow

PowerPoint Level II

This advanced PowerPoint course is designed for users ready to take their presentation skills to the next level. Learn how to build professional themes, streamline design with Slide Master, and enhance visual storytelling through animation, video, and advanced chart customization.

- Create and manage Slide Master layouts to maintain consistent branding across entire presentations
- Design custom PowerPoint themes, including personalized color palettes, fonts, and reusable backgrounds
- Animate bullet points, charts, and objects using entrance, emphasis, and exit effects, plus explore the Morph transition
- Integrate video, hyperlinks, and dynamic charts and tables imported from Excel for interactive presentations
- Customize presentation workflows with hidden slides, custom shows, sections, and the Quick Access Toolbar
- Collaborate and finalize projects with built-in commenting tools, PDF export options, and optimized printing settings

Microsoft Outlook Level II

In this course, you will configure mail accounts, perform advanced searches, control spam with filters, automate tasks with rules, and learn advanced calendar and contact management skills. This course builds upon the foundational knowledge presented in the Microsoft Outlook Level I course and will help you customize a communication system well-suited to your work styles.

- Configure mail accounts, modify messages, and set global options to personalize your Outlook environment
- Organize and search messages efficiently, manage mailboxes, and control spam with filters
- Automate message management using rules to streamline repetitive tasks
- Manage calendar settings and schedule activities for better time and task management
- Work with contacts and groups to maintain and organize your professional network
- Share workspaces and collaborate more effectively with teammates
