Course Outline

This package includes these courses
Power BI Bootcamp (12 Hours)

Power BI Bootcamp

Learn how to transform raw data into powerful, interactive dashboards with Power BI, a leading business intelligence tool used across industries. This hands-on bootcamp covers data connections, visual design, and publishing reports for real-world insights.

- Import and clean data from Excel, CSV, and other sources using Power Query
- Create interactive visualizations, including charts, maps, cards, and slicers, to explore trends and patterns
- Use DAX to build measures, calculated columns, and custom aggregations
- Manage table relationships to create dynamic, filterable reports with a professional finish
- Set up dashboards, schedule data refreshes, and manage reusable datasets for scalable reporting
- Share and collaborate on reports via the Power BI Service
