## Course Outline

### Section 1

#### Creating New Files & Designing on a Grid System

- Creating a new file
- Artboards & pages
- Setting up a layout grid
- Creating colored backgrounds for text
- Importing text

#### Adjusting the Layout for Tablets & Mobile Phones

- Designing with Bootstrap's grid
- Adapting the design for tablets
- Adapting the design for mobile phones

#### Inserting & Masking Photos

- Importing photos
- Cropping a photo (masking)
- Custom shaped masks

#### Inserting Vector Graphics, Fills, Shadows, & More

- Importing & modifying vector graphics
- Making grouped objects easily selectable
- Layer opacity vs. fill opacity
- Aligning & distributing layers
- Reusing colors found in the design
- Adding a drop shadow

### Section 2

## **Layer Styles (Reusable Appearance)**

- Creating a layer style
- Changing & renaming layer styles
- Making a style to darken full-width background photos

## **Text Styles (Reusable Appearance)**

- Creating text styles
- Editing text styles
- Renaming styles & organizing into folders

## **Symbols (Reusable Components)**

- Creating & editing symbols
- Customizing content inside a symbol
- Controlling the layout & resizing of symbols
- Renaming symbols
- Moving symbols between pages

## **Exporting Assets: SVG & PNG**

- Exporting artboards
- Exporting for web as SVG & PNG
- Exporting into folders

## **Exporting Assets: 1x & 2x JPEG**

- Exporting as JPEG
- Properly setting JPEG quality
